Preface vii

List of participants and contributors viii

PART ONE: ECOLOGY

Life cycles of nemerteans that are symbiotic egg predators of decapod Crustacea: adaptations to host life histories
by A. M. Kuris 1

Nemertea inhabiting the *Haploops* (Amphipoda) community of the northern Øresund with special reference to the biology of *Nipponnemertes pulcher* (Hoplonemertea)
by J. J. McDermott 15

Aspects of the biology of *Pantinonemertes californiensis*, a high intertidal nemertean
by P. Roe 29

The infestation and dispersion patterns of *Carcinonemertes* spp. (Nemertea) on their crab hosts
by J. D. Shields 45

Carcinonemertes pinnotheridophila sp. nov. (Nemertea, Enopla, Carcinonemertidae) from the branchial chambers of *Pinnixa chaetopterana* (Crustacea, Decapoda, Pinnotheridae): description, incidence and biological relationships with the host
by J. J. McDermott & R. Gibson 57

Ecological studies of the nemertean fauna in an estuarine system of the northwestern Gulf of Mexico
by J. O. Wern 81

PART TWO: TAXONOMY AND PHYLOGENY

Methods of classifying nemerteans: an assessment
by J. Moore & R. Gibson 89

Phylogeny, natural groups and nemertean classification
by P. Sundberg 103

Major characters and enoplan systematics
by F. B. Crandall 115

Observations on the morphology of some North American nemertines with consequent taxonomic changes and a reassessment of the architectonics of the phylum
by N. W. Riser 141

A reassessment of the systematics and a proposal for the phylogeny of some cosmopolitan *Lineus* species (Nemertea)
by J. Bierne, M. Tarpin & G. Vernet 159

A proposal for a check-list of characteristics to be used in the description of palaeonemertean species
by R. Hylbom 169

The genus *Valdivianemertes* Stiasny-Wijnhoff 1923 (Nemertea, Enopla, Hoplonemertea): nomenclatural status and proper systematic position
by F. B. Crandall 175
Paralineopsis taki gen. et sp. nov., a littoral heteronemertean from Japan, provided with special proboscideal, circulatory and sensory organs of significance to nemertean systematics
by F. Iwata 185
Riserius pugetensis gen. n., sp. n. (Nemertina: Anopla), a new mesopsammic species, and comments on phylogenetics of some anoplan characters
by J. L. Norenburg 203
Enzyme electrophoresis, genetic identity and description of a new genus and species of heteronemertean (Nemertea, Anopla) from northwestern Spain and North Wales
by A. D. Rogers, J. Junoy, R. Gibson & J. P. Thorpe 219
Morphological variation in the palaeonemertean *Tubulanus annulatus* (Montagu 1804)
by M. Svensson 239

PART THREE: GENERAL BIOLOGY

Evidence for a FMRFamide-like peptide in the heteronemertine *Cerebratulus lacteus* Leidy
by W. R. Kem & C. Östman 247
Molecular approaches to the study of evolution and phylogeny of the Nemertina
by J. D. Ferraris 255
The influence of light and sea water temperature on the reproductive cycle of *Lineus ruber* (Heteronemertea)
by G. Vernet & J. Bierne 267
Patterns of trace metal accumulation in Swedish marine nemerteans
by E. G. McEvoy & P. Sundberg 273
